Preparation of Plan showing Footpath Activity Items

When submitting your Footpath Activity Application Plan, the following information is required to assist in the approval. Each applicant is to provide a plan similar to the example drawing in the *Example of Activity Zone* attachment.

To produce this drawing the applicant will need to sketch a drawing indicating the proposed tables and seating, signage, display tables, umbrellas etc. proposed to be in the activity zone.

Step 1: Measure the existing frontage of your shop and locate entry/exit doors.

Step 2: Measure from front of building/boundary line of property and show on drawing distance from Building frontage to back of kerb. Show the Pedestrian Zone of 1.8m and the Kerb Zone of 0.7m. This will determine the maximum area available for the Activity Zone.

Step 3: Measure and show on plan any existing site features, Parking machines, seating, service valve etc.

Step 4: Show on plan proposed seating, tables, sign, goods display etc. that you intend to place inside the Activity Zone.

When your plan is submitted as part of your application, the information on your plan will be reviewed by Council's Technical Services unit. Any permit will be issued by Council's Community Compliance Unit.

If you need help or clarification of what can be permitted in your Activity Area please contact Council's Community Compliance unit on 03 5722 0888.
