## Power Outages

Power outages can occur at any time. To prepare you should have an energy plan and kit which includes:-

- Important Contacts
- Access to a phone (if possible) such as a charged mobile or landline not reliant on electricity
- Alternate lighting, ie a torch or battery operated light
- Fresh water
- A battery-powered radio
- Alternatives for cooking and heating

If you require uninterrupted supply of power because you have a medical condition needing continuous power, or other special needs, you should report your needs to your electricity retailer and make sure they have your up-to-date telephone numbers and contact details.
