

Dear Neighbour,

I'm writing to advise that we are currently experiencing an ongoing noise disturbance in the neighbourhood due to barking dogs. I believe that your dog may be contributing to this issue.

I have discussed this situation with The Rural City of Wangaratta. They have suggested that as a first step, I should contact you in writing to express my concern, to ensure you are first made aware of the issue and also given the opportunity to rectify the situation.

On the back of this letter is some information from Council, which may be of assistance to you in resolving problematic barking.

Your co-operation at this stage is all that is required to avoid this matter progressing any further and involving the Council.

Thank you in advance for your understanding and cooperation.

Yours sincerely,

Neighbour
