Council maintains consistency in the approach to procurement across the whole organisation through coherent frameworks, policies and procedures. The benefits of the purchase are weighted to achieve the optimum result for the Council and local community. Council is not required to accept the lowest cost. For procurement activities under \$250,000, the procurement methodology and thresholds in Appendix A will apply.

All monetary values stated in this policy exclude GST except if stated otherwise.

Procurements with an estimated expenditure of \$250,000 or more, must be undertaken by tender unless a valid exemption is in place as per 3.4 Exemptions from Public Tendering.

The tender thresholds shall apply to aggregated supplier expenditure for a period of no less than two financial years.

All public tenders will be published via Council's eTendering Portal and will be advertised in the local newspaper. Information regarding current tenders will be placed on Council's website.

- clearly defines Council's requirements;
- encourages the use of standard products;
- ensures impartiality and objectivity;
- encourage sustainable options;
- eliminates unnecessarily stringent requirements

A detailed Tender Evaluation Plan shall be developed and approved. Amongst other things, this involves the establishment of detailed evaluation criteria and the application of a pre-approved

3.8 Evaluation Criteria

The following evaluation criteria will be applied in determining whether a proposed contract provides value for money:

- Mandatory Compliance criteria;

3.9 Contract Terms

All contractual relationships must be documented in writing based on standard terms and conditions. Where this is not possible, approval must be obtained from the appropriate member of Council staff listed in the Council Delegations.

To protect the best interests of Council, terms and conditions must be settled in advance of any commitment being made with a supplier. Any exceptions to doing this expose Council to risk and thus must be authorised by the appropriate member of Council staff listed in the Council Delegations.

3.10 Collaborative Procurement

Under Section 108 of the Act, Council will seek to collaborate with other Councils and public bodies in its procurements to take advantage of economies of scale.

Under Section 109 of the Act the CEO must ensure any Council report that recommends entering a procurement arrangement, sets out information relating to opportunities for collaborative procurement, including:

- the nature of those opportunities, if any, and the councils or public bodies with which they are available; and
- why Council did, or did not, pursue the identified opportunities for collaboration with that procurement process.

Council staff must consider any opportunities for collaborative procurement in relation to a procurement process undertaken by Council.

When collaborating with other councils and public bodies, Council will do so in accordance with the following:

- Prospective contracts with a value of \$500,000 or greater for supply of goods, services or works will be shared with councils in the Hume Region for collaboration consideration. The list of prospective contracts will be shared annually in advance of the next budget year;

- Prospective contracts with a value of less than \$500,000 can be referred to the councils in the Hume Region for collaboration consideration where operational efficiencies are anticipated to be achieved;
- A Heads of Agreement will be established should a collaborative procurement opportunity exist with two or more Hume Region councils. The Heads of Agreement will give authority for the Lead Council to act as Procuring Agent for participating councils. Each of the participating councils will be able to enter into a contract with the preferred service provider identified through the collaborative procurement process. Alternatively, a Joinder Agreement will allow one or more of the Hume Region councils to join an existing contract – this may be beneficial where there are different contract periods or decision making and authorisation processes of councils in the Hume Region;
- Each participating council must be involved in:
 - the initial decision to undertake the procurement (unless subsequently joining an existing contract under a Joinder Agreement);
 - preparation of, and agreement to, the specifications;
 - ensuring probity for the procurement (see Section 2.7); and
 - deciding which tenders to accept or reject.

4 Delegations

Delegations define the limitations within which Council staff are permitted to work. This enables the Council to conduct procurement activities in an efficient and timely manner whilst maintaining transparency and integrity.

5.2 Risk Management

Risk management is to be appropriately applied at all stages of procurement activities which will be properly planned and carried out in a manner that will protect and enhance Council's capability to prevent, withstand and recover from interruption to the supply of goods, works and services.

Council will minimise its risk exposure by measures such as:

- standardising contracts to include current, relevant clauses;

All Council contracts are to include contract management requirements. Furthermore, contracts are to be proactively managed by the member of Council staff responsible for the delivery of the contracted goods, services or works to ensure the Council receives Value for Money.

5.4 Performance Measures and Continuous Improvement

Appropriate performance measures are to be established and reporting systems will be used to monitor performance and compliance with procurement policies, procedures, and controls

The performance measurements developed will be used to:

5.5 Dispute Resolution

All Council contracts must incorporate dispute management and alternative dispute resolution provisions to minimise or avoid protracted disputes and litigation.

6. Sustainable Procurement Objectives

Council's procurement activities will be undertaken having regard to the below Sustainable Procurement objectives. The ability to meet or exceed the standards detailed in the table below must be considered in the preparation of specifications and the evaluation of tenders where the contract threshold value is \$250,000 or more (see section 3.2).

Council can choose to apply these standards for all other procurement activities.

Council aims to develop relationships with suppliers that creates mutually advantageous, flexible, and long-term relations based on the quality of performance and financial savings.

Council may establish Panel arrangements where rates contracts for goods, services or works are appointed to facilitate aggregated spends under contract. Subsequently quotes to appoint from the Panel on job-by-job basis promotes competition and value for money.
