Ensuring the Rural City of Wangaratta has a vision that reflects our community's aspirations have been Council's sole focus in developing this document. In our Community Vision, I believe we have achieved this.

The success of this vision largely depends on having a community with ownership and understanding of our vision.

In developing our vision Council has actively engaged a wide range of community members to discover what they would like their home to look like in 2033. What we discovered was a community with diverse views, but who also continually touched on common themes.

We also heard from an extremely conscientious community. While we want our community to be aspirational, we discovered that the Rural City of Wangaratta is equally concerned for aspects of our future, and pleasingly, extremely pragmatic about the path ahead.

Consultation for our vision involved:

- 1104 residents completed the Shape Your Community Survey
- 216 of these were primary school aged children
- We held 12 pop-up engagement sessions
- We held 3 face to face engagement sessions at local primary schools

Development of our Vision has been heavily driven by the Shape Wangaratta community panel. This panel was formed after an open call for nominations from members of our community. We were astounded to receive 126

applications – and we accepted them all.

Having a community filled with people willing to put their hands up and help out is what gives me the confidence this vision will come to fruition.

The panel have participated in 5 online engagement sessions and one in person session, working together to whittle down the survey responses and develop the key themes and focus areas that are now in this vision document.

The key themes we now have as a result of the work of the Shape Wangaratta Panel are:

1. *Leadership*
2. *Wellbeing*
3. *Environment*
4. *Economy*
5. *Lifestyle*
6. *Growth*

Under each of these themes are the focus areas we can really hone in on to achieve our Vision over the next 12 years.

My favourite part of this plan is the “What we can all do to help” sections underneath each theme. Council plays the leading role in achieving the vision, but there are practical things each of us can do in our daily lives to live in a community we can be proud of.

Ultimately it is our community who will make the changes and adaptations needed to bring this vision to fruition.

Community Vision

Wangaratta 2033

“We are an inclusive, courageous and compassionate community, that has built our future on a respectful balance between the urban and the rural. We are known for our natural beauty, access to opportunities and innovation, our resilience, and our community strength. We have a mature and healthy landscape that supports our wellbeing and forms a strong part of our identity. We are the place where everyone has the ability to engage, to prosper, to be supported, and to grow.”

The Rural City of Wangaratta Community Vision 2033 is a plan that captures the hopes and aspirations of the whole community, and ensures we are planning for a bright future for all.

The Community Vision was developed through consultation with our Shape Wangaratta Panel, council staff and our wider community members.

Continuing to build strong partnerships with community members, groups, businesses, organisations and State and Federal Government, will be essential to successfully achieving our Community Vision.

Our Community Vision informs the long-term strategic direction for the Rural City of Wangaratta.

Our Community Vision incorporates community feedback and sets key directions and priorities to define our roadmap for the future.

The Community Vision 2033 is a long-term plan for the community, by the community. It paints a picture of what we want the future to look like and outlines strategies on how we are going to get there.

The purpose of the Vision is to identify the community's priorities and aspirations for the future, and plan strategies to achieve them. These strategies take into consideration the issues and pressures that may affect the community and the level of resources that will realistically be available.

The Community Vision 2033 was developed through consultation with our Shape Wangaratta Panel, Council staff and our wider community members.

While the Rural City of Wangaratta has a custodial role in initiating, preparing, and maintaining the Community Vision on behalf of the local government area, it is not wholly responsible for its implementation. Other partners, such as state agencies and community groups may also be engaged in delivering the long-term objectives of the plan.

The Community Vision is a document that has the potential to greatly influence our community; and will influence the Rural City of Wangaratta's Council Plan (incorporating the Municipal Public Health and Wellbeing Plan), Strategic Plan and Budget.

This document will also be used by local businesses, community clubs and organisations when planning for the future.

Ultimately, everyone who lives in the Rural City of Wangaratta has an opportunity and responsibility to work towards achieving our vision for the future.

Challenges

As a large agriculture region, the Rural City of Wangaratta is vulnerable to the impacts of climate change. Issues include increased intensity and frequency of extreme weather events, such as prolonged heatwaves, floods, bushfires, and indirectly worsening air quality, food availability and risks to food safety and drinking water quality¹. The need to address climate change is imperative, as is implementing frameworks that address climate risks.

Providing affordable, equitable and sustainable housing is an ongoing challenge. The balance between what exists now and planned future development means that a sustained effort must be made to consider how and where new developments will occur.

Recovery from COVID-19 was recognised as a challenge to the Rural City of Wangaratta as we work towards re-establishing our local tourism industry, increasing employment opportunities, promoting business growth and recovery; whilst attracting new businesses to the region. At present, there are 3,156 businesses across the municipality.

A thriving local economy ensures vibrant, liveable communities and local businesses. We will need to generate another 3,900 jobs in our region by 2027 to cater to the expected population growth and keep the unemployment rate low. Our future prosperity as a region depends on industry diversity, business and employment growth.

Opportunities

Our municipality is surrounded by green landscapes, beautiful mountains and waterways. Our natural environment is important to our identity. Therefore, maintaining and conserving our environment and keeping it free from pollution in light of an increasing population is vital.

Within the Rural City of Wangaratta, we have access to water, transport, health, education and community infrastructure worth billions of dollars. Investing in infrastructure to meet the diverse needs of our growing community will ensure we serve the next generation who live here.

We are lucky to have access to vibrant arts and cultural facilities and we recognise that there is an opportunity for our local tourism industry to grow and expand; making the Rural City of Wangaratta the place to visit.

The people within the Rural City of Wangaratta are our strength. Our welcoming and family-friendly environment is one of our municipality's best features.

From our community

"A rural city that listens to its community and acts on behalf of them, with their best interests at heart, and not that of the political agenda of Council people."

.....

"To live and work cohesively with transparency, equality and trust in the community and Council collectively."

.....

"To really listen to the people and deliver what they need, including the surrounding areas - not just Wangaratta. To become approachable and solution focused."

Wellbeing

Our people are our biggest asset, and everyone, at every age is an important and valued member of our community. We are committed to strengthening and creating opportunities for connection, creativity, and inclusion. We will open the door for everyone to local sporting, community and cultural initiatives that strengthen our collective sense of self and improve our wellbeing.

The mental and physical health of everyone underpins how we build our communities, how we make decisions, and how we plan for our future. We protect ourselves and each other to ensure our homes and our connections allow us to become our best. We will work together to solve our own challenges, to support those in need, and to make our community safe.

“Becoming an example of a local government area which takes sustainability seriously and shows this can be done whilst growing our economy.”

.....

“Taking a leading role in providing new, sustainable, environmentally friendly technology, training and business opportunities and providing support and incentives to individuals/groups/businesses that also look to the future.”

Economy

We are a growing region with an expanding sense of opportunity, and we will capitalise on those possibilities for the benefit of all. Strategic economic development, revitalising key locations, establishing new industry partnerships and renewing our commitment to education and employment for young people are just the starting points. These initiatives, and others like them, will create new opportunities for local employment, create new social enterprises and facilitate a culture of innovation that will bring new people and businesses to the region.

We value an economy that blends the rural with the urban. Our point of difference is how well we have done this. Our CBD is vibrant, interesting, and active and our rural communities are all uniquely prosperous and protected. We have a strong and sustainable future.

A valued and vibrant tourism industry

OBJECTIVES

P1 Work closely with partners and tourism operators to understand and support our unique tourism product

.....

“Community voice, connection and thoughtful growth towards an economic, environmental and socially sustainable future for generations to come.”

.....

“Attracting businesses to Wangaratta that will help create a “circular economy” out of waste. I would also like to see the Organic Waste Facility begin to generate income for RCoW.”

.....

“Given the location – to be a central community and commercial hub for regional, rural and alpine areas.”

Lifestyle

For us, creating a liveable community means having the right balance. We love the feeling of being a country town, but highly value our ability to access services, events and opportunities that enhance our quality of life and bring us closer together. Together we are activating public spaces, increasing access to green spaces, and delivering a range of safe and welcoming amenities – like walking and cycling routes, that promote healthy living and enjoyment of the natural world. Reliable public transport is key to keeping our growing population mobile, so we are focused on improving the commuter experience. We will continue to acknowledge the Aboriginal and Torres Strait Islander culture that shapes our community and celebrate our diverse community through a range of cultural experiences.

“Prioritise sustainable movement and mobility, through funding active transport projects and advocating for improved public transport.”

.....

“To be a safe and inclusive community where people have access to all they need, whether it be services or sport and fitness or shops or art or entertainment.”

.....

“A welcoming, self-determined community that provides anyone wanting to live here with the infrastructure, services, culture and connections they need to thrive and belong.”

Growth

We know that our community is attractive and appealing to many people. We are accessible, affordable, inclusive, safe, and engaging and we have made it our priority to ensure we offer this to our new community members. Our planning puts people, families and community at the forefront of decision making and you can see that in the way our neighbourhoods, services and facilities have grown. We have welcomed new people, and they have become valued and integral members of our community.

The right growth in the right areas

OBJECTIVES

AA1 Facilitate attractive long-term residential growth opportunities

.....

“The focus of attracting young families to the region with the provision of adequate infrastructure of housing, services, including health, career and recreation opportunities.”

.....

“Ensure new housing development compliments the existing parks and trail networks and not becomes bland featureless estates.”

.....

“Ensure the sustainability of the growth is considered. Pursue quality growth, as opposed to quantity growth.”

Community Engagement

Community engagement for the development of the Community Vision was undertaken from the 4th of February 2021 until the 14th of April 2021. The purpose of the engagement was to obtain feedback on what Council has previously delivered and to determine the priorities for the next 12 years.

A range of engagement methods were used to ensure that a maximum number of community members had the opportunity to be heard. These included:

- Establishment of the 'Shape Wangaratta' Community Panel
- Presentations and discussions with community groups
- Presentations and discussions with school groups.
- Listening Posts
- 'Storytelling' opportunities
- Discussions with our Youth Council
- Shape Your Community Survey
- Child-friendly version of the Shape Your Community Survey
- Community newsletter

To represent and refine the engagement information, the Shape Wangaratta Panel workshopped the data gathered from the Shape Your Community survey into a series of themes and priorities that would provide the framework for the Community Vision 2033.

Shape Wangaratta Panel

Council has established a community panel called 'Shape Wangaratta' to support Council with the discovery of new ideas, projects and solutions, and to ensure broader representation of the community in decision making.

The panel is a diverse group of 126 people of all ages and backgrounds. They will provide insight into the community needs and priorities to help inform Council's plans, strategies and budgets.

The panel will give members the opportunity to share their views on specific topics by participating in activities like surveys, focus groups, workshops or interviews. Each member can decide how much they participate and what they share their thoughts and opinions about.

The Shape Wangaratta panel has formed a vital part of the development of the Community Vision, Council Plan (incorporating the Municipal Public Health and Wellbeing Plan) and Budget.

As a group of people who are experts in their own community, the panel's contribution has given Council valuable depth and insights into key issues, challenges and solutions, as well as helped us to develop key strategies within our focus areas for the next 12 years.

Understanding Integrated Planning and Reporting

The key elements of the Integrated Planning and Reporting Framework are:

Community Vision

The Community Vision describes the community's main priorities and aspirations over the next 10+ years.

Council Plan (incorporating the Municipal Public Health and Wellbeing Plan)

The Council Plan (incorporating the MPHWP) is a key medium-term strategic plan that describes the strategic objectives, actions to achieve the objectives, indicators for measuring progress and the resources required to implement the plan for at least four years.

Financial Plan

The Financial Plan defines the broad fiscal boundaries for the Council Plan, Asset Plan, other subordinate policies and strategies and budget processes over a 10-year period.

Asset Plan

The Asset Plan provides a long-term (10+ years) strategic and financial plan of how the Council proposes to manage the full portfolio of assets that it owns and controls.

Budget

The Budget outlines Council's income and revenue and how these resources will be allocated across the four-year Council Plan, including initiatives, programs, services, and capital works, as well as financing and debt redemption/servicing.

Revenue and Rating Plan

The Revenue and Rating Plan outlines how Council will generate income to deliver on the Council Plan, program and services and capital works commitments over four-year period.

Workforce Plan

The Workforce Plan is an internal document that describes the organisational structure of the Council and specifies projected staffing requirements for a period of at least four years.

Annual Report

The Annual Report outlines the Council's performance for the year as measured against the Council Plan and Budget.

Alignment with State and Regional Priorities
