

> Flood Preparation Checklist

Flooding in Wangaratta can occur along the Ovens and King Rivers, as well as through flash flooding in the CBD and low-lying areas.

General

- ☐ Check if your premises is in a flood-prone area
(Refer to SES Local Flood Guide for Wangaratta:
ses.vic.gov.au/plan-and-stay-safe/flood-guides/rural-city-of-wangaratta).
- ☐ Add flood risk actions into your Business Continuity Plan.
- ☐ Review insurance policies to ensure flood damage and business interruption cover are included.

Infrastructure and Property

- ☐ Identify problem areas and potential water entry points
(doors, drains, basements).
- ☐ Elevate valuable stock/equipment to higher levels.
- ☐ Store hazardous materials in waterproof containers.
- ☐ Secure objects likely to float and cause damage.
- ☐ Prepare sandbags in advance if near flood-prone areas.
- ☐ Inspect and maintain roof, gutters, drains to handle heavy rainfall.
- ☐ Consider making changes to your business/property to protect against floods, such as installing flood-resistant floor coverings (e.g. tiles), having furniture and fittings that can be easily cleaned, raising electrical sockets.
- ☐ Check that your evacuation plan includes instructions on how to turn off electricity, gas and water at the mains.

Emergencies

- ☐ For help with flooding, call SES 132 500.
- ☐ For life-threatening emergencies, call 000 (Triple Zero).
- ☐ Monitor Bureau of Meteorology (BOM) and VicEmergency warnings.
